

# Appendix

## How to set group and queue information in UMUI for FAMOUS experiments

### 1. How to find your archer password

The password to *archer* ncastrXX accounts is contained in the following file on *puma*:  
`/home/n02/n02/shared/ncas_training_jun2016.txt`

### 2. How to set group and queue information in the UMUI

The queue which has been reserved for E2SCMS on *archer* is called R3687248.  
This can be checked on *archer* with the following command lines :

```
vanniere@eslogin003:~> module load anaconda
vanniere@eslogin003:~> pbs_rstat
```

| Name       | Queue    | User  | State | Start       | Duration  | End                |
|------------|----------|-------|-------|-------------|-----------|--------------------|
| R3687248.s | R3687248 | +,ajr | CO    | Thu 10:00   | / 709200  | / Fri Jun 17 15:00 |
| S3711244.s | S3711244 | +,ajr | CO    | Today 22:00 | / 28800   | / Thu 06:00        |
| R3734279.s | R3734279 | +,ajr | RN    | Tue 12:00   | / 1209600 | / Tue Jun 21 12:00 |
| S3735070.s | S3735070 | +,ajr | RN    | Today 08:00 | / 43200   | / Today 20:00      |

To request the above queue, do the following:

- Go to MODEL SELECTION → POST PROCESSING → LOCAL POST PROCESSING SCRIPTS. Replace the line `/home/matthew_miz/famous/course1.sh` by `/home/vanniere/famous/course1.sh`. Make sure you set it to Y.

This queue can be accessed by members of the group `n02-training`. You set your group you need to do the following:

- Go to MODEL SELECTION → USER INFORMATION AND TARGET MACHINE → GENERAL DETAILS to set Tic Code to `n02-training`.
